

# IPG FREEZE SPACER

**Economical, Efficient and Convenient**

**Ensures maximum air penetration in freezing and tempering situations.**

# IPG Freeze Spacer

## IPG Freeze Spacer- unique design

The unique design of the IPG Freeze Spacer ensures maximum air penetration in freezing and tempering situations.

Due to the robust structure in High-Density Polyethylene, the Freezer spacer withstands temperatures between -50 and +90 0C and is resistant to most acids and chemicals, thereby ensuring a long lifespan even in the toughest working environments.

The open profile of the IPG Freeze Spacer makes it easy to clean and nests well when not in use.

## Properties and advantages

- ➔ Highly efficient (documented)
- ➔ Sturdy and reusable – again and again
- ➔ Easy to clean and nest
- ➔ Economical, Efficient and Convenient
- ➔ Manufactured in HDPE - resistant to most acids and chemicals
- ➔ Designed for temperature sensitive applications
- ➔ Can withstand temperatures between -50°C and +90°C.
- ➔ Air circulates rapidly through the cavities of the spacer ensuring a faster and efficient freezing of the whole pallet load.
- ➔ Maximum air penetration in Freezing and Tempering operations
- ➔ Open profile design allows for easy cleaning
- ➔ Nestable for space saving
- ➔ 100% recyclable
- ➔ For indirect food contact
- ➔ Colors; Black or blue as standard – other colours can be supplied on request

# IPG Freeze Spacer

Volume reduction, Nestable for space saving

## Technical data

Item No.	Length mm	Width mm	Height mm	Stacked spacer height	Weight/ pcs Gr	Material	Pcs/pallet	KG incl. pallet
IPG- 35.312	1200	1000	50	+18,4	3680	HDPE	100	386
IPG- 40.312	1200	1000	50	+30	3360	HDPE	70	253
IPG- 35.310	1200	800	50	+18,4	2960	HDPE	100	314
IPG- 40.310	1200	800	50	+30	2720	HDPE	70	208
